

PATIENT PORTAL INSTRUCTIONS

There are two ways to access our patient portal:

1. Click the “Patient Portal” link on our website:
www.schoolhousepediatrics.com (top left corner).
2. Follow the link in the email when you receive Patient Portal message notifications.

To log in, enter the username and password given to you in our office. If you ever forget your login information, our front desk can reset it for you if you give us a call!

You can then send and/or receive non-urgent messages from us in the **My Messages** section.

You can access medical records, vaccine records, and past encounters under **Summary of Care**.

If you have any trouble accessing or navigating our patient portal, our office would be happy to help!
